#### Welcome to the RIGHT Foundation Grant Management Portal.

RIGHT Foundation is pleased to announce a new funding opportunity for product development and training under the **Product Development Award (PDA)** and **Training Award (TA)**. Please review the summary below carefully, move to the appropriate page for detailed information and the appropriate application form.

 Under the Product Development Award, we are seeking proposals aimed at developing vaccines, therapeutics, biologics or diagnostic platforms to alleviate infectious diseases or non-infectious diseases that closely intersect with such infectious diseases in the World Bank-defined low- and middle-income countries (LMICs). PDAs support up to 4 billion KRW per project. The project team must include at least one Korean entity. Collaborative submission between Korean and non-Korean institutions are highly encouraged.

 Under the Training Award, we support the training of work force from the World Bank-defined low- and middle-income countries (LMICs) in vaccine manufacturing at a state-of-art facility at the Korea National Institute for Bioprocessing Research and Training (K-NIBRT) campus, Incheon, Korea. The TA will fund the expenses for a round-trip airfare to Korea, entry visa application, course fees, accommodation/meals for the duration of the hands-on module in Korea. The training curriculum consists of on-line lectures and a hands-on practical module for 8 weeks. The awardees are required to be in Korea for attending the hands-on training.

For further information on the application, please refer to the FAQ (EN, KR) on our website.

This portal provides you with the necessary tools to effectively carry out your project, and a transparent view of your application status and process. For instructions, please refer to the user manual PDF or video tutorial.
